TEKTRON[®]

Reliable engineering, Futuristic design

Brands we have worked with :

Create a welcoming Atmosphere while saving energy
and reducing maintenance cost with TechnoLed
Lighting's & Hospitality Solutions.

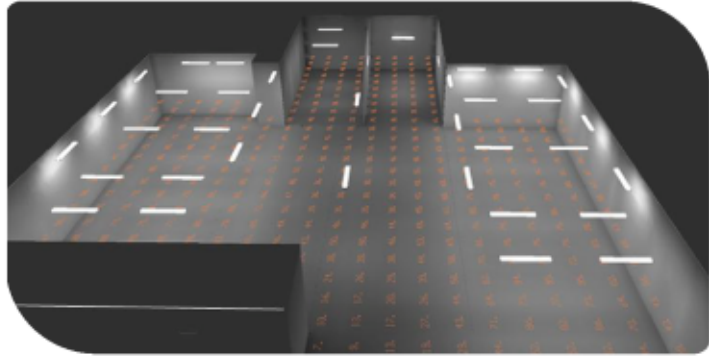

Custom Design & development straight from manufacturer

Indoor And Outdoor Lighting

We provide innovative lighting solutions for both interiors and exteriors, designed to elevate spaces with style and efficiency.

From architectural landmarks to residential projects, our lights enhance aesthetics while ensuring safety and functionality. Our focus is on creating energy-efficient, sustainable systems that leave a lasting impression day and night.

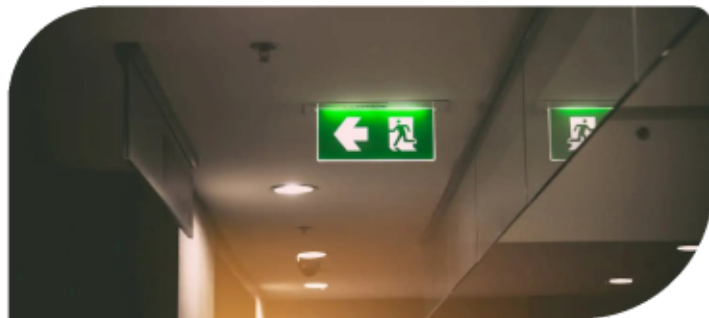

Photometric Studies

Our photometric studies ensure lighting layouts are scientifically accurate and optimized for every project. We analyze brightness, coverage, and energy efficiency to deliver the perfect balance of design and performance. This helps clients visualize results before installation, minimizing errors and maximizing efficiency.

Guestroom Lighting / FF&E Lighting

Guestroom and FF&E lighting solutions are designed to blend comfort, elegance, and modern functionality. We customize lighting setups for hotels, residences, and hospitality spaces to enhance guest experiences. Our approach combines aesthetic appeal with practical efficiency, creating inviting and memorable spaces.

Exit & Emergency Lighting

Safety is at the core of our exit and emergency lighting solutions, built to perform when it matters most. We provide reliable systems that ensure compliance with safety standards in commercial and residential buildings. From stairwells to corridors, our emergency lighting guarantees visibility during power outages or emergencies.

Lighting Controls & Programming

Our intelligent lighting control systems make spaces smarter, energy-efficient, and user-friendly. With advanced automation and custom programming, we provide seamless control at your fingertips. These solutions allow for dynamic ambiance, reduced power consumption, and enhanced convenience.

Five Year Warranty

Commercial Warranty & Support

Every Tektron product comes with a strong warranty, reinforcing our promise of quality and durability. We provide prompt support and hassle-free service to keep projects running without disruptions. This commitment ensures peace of mind and builds trust with our clients for years to come.
