

## LED BULB

### SZB9WA19ND27

schäezer<sup>®</sup> LED bulbs are designed for effortless retrofit into E26 base fixtures, offering a modern, energy-efficient alternative to traditional incandescent, halogen, and CFL lamps. Engineered for optimal performance, these bulbs deliver exceptional energy savings and reduced maintenance costs, ensuring long-term reliability and value.

With their pure, elegant design and consistent light output, Standard LED bulbs are ideal for general-purpose illumination in residential, commercial, and hospitality environments. They combine high efficiency with superior light quality — delivering the performance you expect from advanced LED technology at an affordable price.

#### Key Features:

- Up to 90% energy savings compared to conventional incandescent lamps
- Long lifetime reduces replacement frequency and maintenance costs
- Instant full brightness with no warm-up time
- Uniform, glare-free illumination for comfortable visual experience
- Environmentally friendly, mercury-free design

9W

PRODUCT : 9W

## MODEL NO.

SZB9WA19ND27P4

SZB9WA19ND27P12

Lamp Type	Wattage	Base	Input Voltage	Color Temp.	Luminous Flux	Luminous Efficacy	DIA(Ø) MM	HEIGHT(H)
A19	9W	E26	120V	2700K	800lm	88.89lm/W	Ø60mm	105mm

Dimmable / Non Dimmable	Non Dimmable	Input Rated Volt.(V)	120V/60 Hz
Power factor	>0.5	Type of LED	SMD 2835
Input Current(A)	75mA@120V	LED power	1W
Beam Angle	22°	Chip Manufacturer	Bridgelux
Color Rendering Index	>80	LED Life Working	>25,000 Hrs.
Material for Fixture	PC with Aluminium	Temperature & Humidity	-20°C ~ 45°C
CRI	80	Environmental Rating	Damp Location
Environmental Compliance	RoHS/FCC	Certificates	UL/CUL
